COMPANY PROFILE

Founded in 2019, CHANGZHOU HEALTH IMPORT AND EXPORT COMPANY LTD, a young and aggressive company mainly engaged in medical product development, covering thousands of medical products, is dedicating to becoming a market leader in the medical products. Our company is known for its good quality reputation, moderate price, and thoughtful services.

We are a professional manufacturer mainly produce various disposable medical products, such as disposable syringes, auto-destroy syringes, insulin syringes, oral syringes, hypodermic needles, infusion & transfusion sets, IV catheter, and all other kinds of medical products.

Based on our principles of honesty and joint efforts among our staff, our company has been constantly expanding to take a leading position in the medical industry. Moreover, our highly efficient group of professional technicians has ceaselessly put forth new products every year, thus maintaining the robust growth trend of the company.

In order to strengthen our management, as well as to ensure that such important products as those within the medical industry meet global quality requirements, we have attained ISO13485 and CE certification for most of our products. We aim to high quality, safety and availability of medical products supplied.

Our principles:

We are working to help people enjoy health.

We are working to use our knowledge and experience to help the patients get well.

We are working to create the best working conditions in which the best employees can develop and achieve their goals.

We are working to strengthen the leadership status of our company in the pharmaceutical market.

CONTENTS 目录

Syringes & Needles

- Disposable Auto-destroy Syringe1
- Disposable Sterile Syringe 3-part2
- Insulin Syringe3
- Disposable Sterile Syringe 2-part3
- Enteral Feeding Syringe4
- Irrigation Syringe4
- Oral Syringe4
- Sterile Hypodermic Needle5
- Disposable Scalp Vein Needle5
- Blood Safety Lancet6
- Disposable Blood Lancet6
- Blood Collection Needle6
- Spinal Needle7
- Epidural Needle7

Infusion & Transfusion

- Infusion Sets8-9
- Transfusion Sets10
- Infusion Sets With Burette10
- Extension Tube10
- Three way Stopcock10
- IV Cannula/Catheter11

Emergency & Surgery

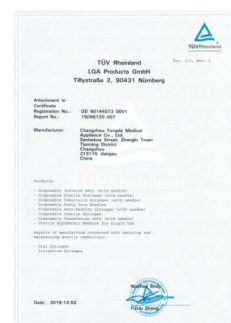

- Tourniquet12
- Surgical Blades12

Other Medical Consumables

- Alcohol Pad12
- Tongue Depressor12
- Cotton Applicator12

Certificate

SYRINGES & NEEDLES

DISPOSABLE AUTO-DESTROY SYRINGE

Capacity: 1ml,2ml,3ml,5ml,10ml

DISPOSABLE AUTO-DESTROY SYRINGE

Capacity: 0.5ml

Ref. No.	Needle Size	Remark
TD -AD -A -0.5ml	18G -30G	A: With assembled needle
TD -AD -A -1ml		
TD -AD -A -2ml		
TD -AD -A -3ml		
TD -AD -A -5ml

	TD -OS -3ml
	TD -OS -5ml
	TD -OS -10ml

ORAL SYRINGE

Capacity: 1ml,3ml,5ml,10ml

INSTRUCTIONS FOR USE

- For single patient use only
 This medicine syringe is suitable for oral, liquid dose medication only
1. Fit the bottle adaptor firmly into the neck of medicine bottle
 2. Empty syringe and draw out plunger to dosage mark required.
 3. Fit syringe into bottle adaptor and invert bottle.
 4. Push in plunger fully and then slowly draw out medicine to dosage mark required.
 5. Check for any air bubbles in the syringe, if any are present repeat step 4 until bubbles disappear.
 6. To measure dose accurately, line the end back ring, on plunger with the required dosage mark.
 7. Place medicine bottle upright and remove syringe. Check dosage accurately again.
 8. Check patient is sitting or held upright before giving medicine.
 9. Place syringe towards inside of cheek and slowly push the plunger, giving the patient time to swallow. Rapid squirting of medicine can cause choking.
 10. Remove bottle adaptor and replace cap securely on medicine bottle.

SYRINGES & NEEDLES

Size		Product	Color		Length

1.20	18G	SV18G	Pink							

Technical Specification:

Luer slip / Luer lock

Needle Gauge: 18G- 27G

Needle Material: Stainless Steel

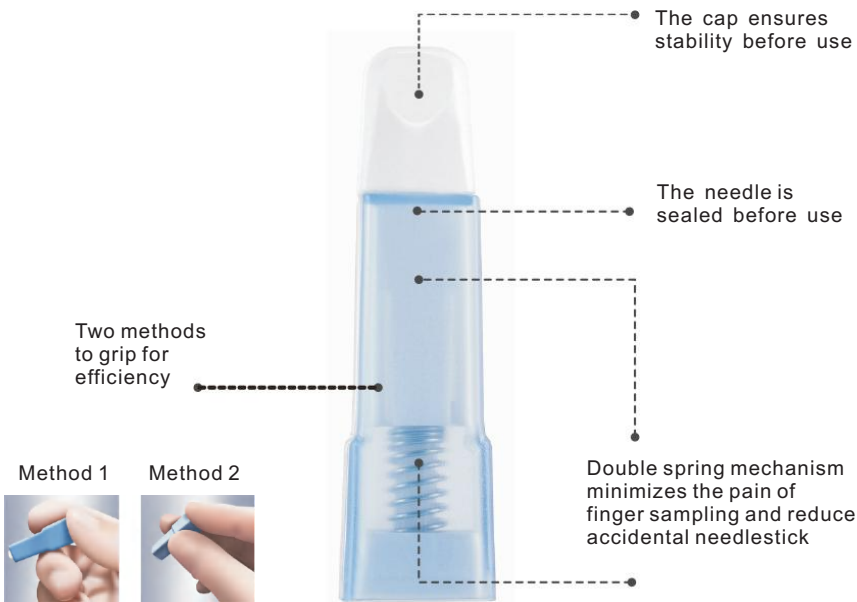

Tube Material: PVC

Sterilization: Sterilized by EO gas

Shelf Life: 5 years

SYRINGES & NEEDLES

BLOOD SAFETY LANCET

Needle available: 21G, 23G, 26G, 28G, 30G

Gamma Radiation

DISPOSABLE BLOOD LANCET

Needle available: 21G, 23G, 26G, 28G, 30G, 33G

Gamma Radiation

BLOOD COLLECTION NEEDLE

Needle available: 16G, 18G, 20G, 21G, 22G, 23G

SYRINGES & NEEDLES

QUINCKE POINT TYPE PENCIL POINT TYPE

SPINAL NEEDLE

Product	O.D.		Length
	mm	Gauge	mm
Quincke Point Type	0.4-1.6	27G-16G	25-200

Completely transparent needles stand provides convenience to observe the outflow of the cerebrospinal fluid.

The needle core with pin allows a good joint of needle edge.

Product	O.D.		Length
	mm	Gauge	mm
Pencil Point Type	0.4- 0.9	27G-20G	25-200

Specially designed needlepoint shape causes no trauma of spinal dura mater, and automatically closes the puncture port after withdrawal of the needle to reduce the leak of cerebrospinal fluid, with the occurrence of PDPH evidently declined.

Proper shape and position of the side hole maintains adequate flow and reduces imperfect retardations as well.

EPIDURAL NEEDLE

Product	O.D.		Length
	mm	Gauge	mm
Epidural Needle	0.9 -1.8	20G -15G	40 -150

Bend and round head helps to reduce largely the risk of piercing spinal dura mater and to ensure the smooth pass of the canula.

The needle tube is scaled for the purpose of depth control.

The needle stand with wings is easy to hold and to perform needle insertion.

INFUSION & TRANSFUSION

INFUSION SETS

Poly bag / Blister pack

Ref. No.	Specification
TD-ISG-A	Closure -piercing device, integral air -inlet with air filter and closure, drip chamber, flow regulator, latex bulb, luer slip
